Fix 'ur Cat's core mission is to help people access low cost spay/neuter for their cats and the cats they care for. We have introduced this clinic to serve our clients who care for a number of cats; are income sensitive; or who rescue cats and kittens. We aim to keep our costs for vet exams and medications as low as possible.

Wounds can be assessed and treated at our clinic (we do not have x ray).

Upper Respiratory Infections (URI) and Urinary Tract Infections (UTI) can be assessed and treated at our clinic. General wellness concerns such as ear mites, fleas, de-worming and nail clipping can also be treated at our clinic.

We do not offer 24-hour care. Blocked male cats cannot be treated at our clinic.
